

Dancin'

Karl Wolf

You think that you're ready, but I don't think you're ready, girl
Girl, you're nervous (nervous) tell me what's your reason
Cuz I don't think it's founded
You said you were goin' to college
But now I don't think you are really bout that

Street lights, midnights - strobe light
Honey, bump it, a lil bit of booze to get you loose
In the mood, baby
Cuz I've seen the look in your eyes
I'll let you make up your mind
You been out all week baby

She dancin' on the pole
She don't really care
It's like she dancin' on the pool
Just to get a paper on
Oh, she's dancing on a pole
She don't really care who knows
She dances, dances
She don't really care who knows
She dances on and on

She wake up to drink
I don't really know what she think
The lil momma outta control
I really think she need a shrink
What happened to the girl I used to know?
You ain't the same person for me as befo'
Baby, you change (nah, I don't think you really bout the)

Street lights, midnights - strobe light
Honey, bump it, a lil bit of booze to get you loose
In the mood, baby
Cuz I've seen the look in your eyes
I'll let you make up your mind
You been out all week baby

She dancin' on the pole
She don't really care
It's like she dancin' on the pool
Just to get a paper on
Oh, she's dancing on a pole
She don't really care who knows
She dances, dances
She don't really care who knows
She dances on and on

Oh, my my, oh my my
Dancin' for someone else
Dancin' for someone else, oh, yeah

She dancin' on the pole
She don't really care
It's like she dancin' on the pool
Just to get a paper on
Oh, she's dancing on a pole

She don't really care who knows
She dances, dances
She don't really care who knows
She dances on and on
