

# Moment Of Silence

Karl Wolf

Moment of silence

Life is too short, we always end up losing what we have every day

So never get up, you gotta fight for what's right

So just stand up and say

We all know that you just want somebody for life

We can go a little, if you love somebody like I love somebody

Let's have a moment of silence

Let's have a moment of silence

Let's have a moment of silence

Woaah, woah

Looking back at all the things we've done,

I wish that you were here

Why is it always that the ones we love they just disappear

We all know that you just want somebody for life

We can go a little, if you love somebody like I love somebody

Let's have a moment of silence

Let's have a moment of silence

Let's have a moment of silence

Woaah, woah
