Radio

Radio Made me low and sabotaged my moving on Why? Every time I'm feeling cool A song just brings me back to you Radio Like TEVO, plays re-runs It's like déjà vu When every time I feel we're through Someone sings me back to you Radio Radio Radio Makes me believe in love Believe in love Believe in love 1515 we started out 2513 we fell in love And 1270 we broke up I cover up when I'm at work Cause this business makes me cold I was all good to go FM's the smoking gun And it caught me on the run It started breaking bones you see Stop reminding, let me be We're arguing, we're throwing things I'm holding back profanities Neighbors looking over She's not sober And her friends start judging me Yeah, then I open my eyes And realize the game I've woken up finally Just 3 years later FM's the smoking gun

And it caught me on the run It started breaking bones you see Stop this blinding, set me free **Karl Wolf**
