

She Wants To Know

Karl Wolf

Get your body movin' on the dance floor
Shake your body girl, shake your body girl
Get your body movin' on the dance floor
Shake your body girl, shake your body girl

She wants to know everything you do
When you're far away or she's next to you
Maybe you're in love or you're just gettin' down
Only time will tell, so baby come around

I'm on it like water when you're so hot like fire
Your body just burnin' till your feet are almost hurtin'
You feel it, the pressure, your love's like hidden treasure
C'mon boy, go get that girl, all she wants to do is to rock your world

She wants to know will you be there for her till the end
She wants to know, gonna love her more than just a friend
She wants to know that dude is feelin' her for real, yeah
Wants to know because she loves you

She wants to know will you be there for her till the end
She wants to know, gonna love her more than just a friend
She wants to know that dude is feelin' her for real, yeah
Wants to know because she loves you

Get your body movin' on the dance floor
Shake your body girl, shake your body girl
Get your body movin' on the dance floor
Shake your body girl, shake your body girl

She's in the zone, she's rockin' all alone
Showing off that body, you know I'd take her home with me
Now it's time to give you what I got
Girl just let me spend, hit you in the right spot

I'm on it like water when you're so hot like fire
Your body just burnin' till your feet are almost hurtin'
You feel it, the pressure, your love's like hidden treasure
C'mon boy, go get that girl, all she wants to do is to rock your world

She wants to know will you be there for her till the end
She wants to know, gonna love her more than just a friend
She wants to know that dude is feelin' her for real, yeah
Wants to know because she loves you

She wants to know will you be there for her till the end
She wants to know, gonna love her more than just a friend
She wants to know that dude is feelin' her for real, yeah
Wants to know because she loves you

Get your body movin' on the dance floor
Shake your body girl, shake your body girl
Get your body movin' on the dance floor
