

Silent Type

Karl Wolf

Ooh

I want you, but I don't wanna tell you
I really want to but it's so hard for me
So please make a move, cause I don't have the guts to
Let you know that I really like you girl

It's not my style to break the ice, just that I'm shy cause you
're my type
I don't know how to breathe when, somebody tell me how I will

So I'll go, silent dude, silent dude
I'll go like a, silent man, silent man
I'll go, and I will go with one without you
So baby won't you take a stand that you want to be with a silent
time

Growing up, I watch my friends get girls
Pulling us, and I cry like it ain't nothing
But it's always been hard for me
To let a girl know how I feel, so don't think I'm coming cause
I won't
I don't have the courage to

It's not my style to break the ice, just that I'm shy cause you
're my type
I don't know how to breathe when, somebody tell me how I will

Silent type, silent type, silent type, silent type
Ooh
