

# Summertime

Karl Wolf

We about to get stupid  
So wake up, wake up, wake up  
And fall in love in the summertime  
Summertime, fall in love in the summertime

Summertime, summertime  
Searchin' for the love, can't you feel the thing?  
I'm tired, you're fighting all the time  
One night my heart went so in love  
You see, we live in a crazy world  
And all this attention I gave you, girl  
Then I gave up

... I'm coming, I'm coming, I'm coming away  
We about to start up  
So follow me all night  
We about to get stupid  
So wake up, wake up, wake up  
And fall in love in the summertime  
Summertime, fall in love in the summertime  
Summertime, fall in love in the summertime  
Summertime, fall in love in the summertime

I'm tired, you're fighting all the time  
One night my heart went so in love  
You see, we live in a crazy world  
And all this attention I gave you, girl  
Then I gave up

Where' s the light at the end of the tunnel?  
... when I tell you I'm coming, I'm coming, I'm coming away

We about to start up  
So follow me all night  
We about to get stupid  
So wake up, wake up, wake up  
And fall in love in the summertime  
Summertime, fall in love in the summertime  
Summertime, fall in love in the summertime  
Summertime, fall in love in the summertime  
It feels like you're loving  
Put up this fire  
And the weather is so lovely  
It feels like you're loving  
Put up this fire  
Just you and I  
As soon as the clouds start to get out of the way

When I tell you I'm coming, I'm coming, I'm coming away

We about to start up  
So follow me all night  
We about to get stupid  
So wake up, wake up, wake up  
And fall in love in the summertime  
Summertime, fall in love in the summertime  
Summertime, fall in love in the summertime

Summertime, fall in love in the summertime
