

# Gonna Be Mine

Karla Bonoff

I got something that you need  
I got something you should see  
Come over and talk to me right now  
Isn't anything you need to bring  
I know a way to make your heart sing  
There's a way to have everything  
Oh, don't be shy

When you come by  
Give me just a little more time  
I'm gonna show you why  
Why you're gonna be mine

Well, it's a tough road out there  
If you're with me honey you won't care  
Let the bird in the air just fly away  
Well, I'll turn the lights down low  
Maybe we'll even dance real slow  
I know you'll never want to go  
Now, give it a try

When you come by  
Give me just a little more time  
I'm gonna show you why  
Why you're gonna be mine
