

## How do you want me

Karma

Tell me can ever  
Stay in love when there is nothing more  
To say or do  
Tell me now, or are you  
Trying to forget that i have  
Ever been with you

You can tell me straight  
Right into me face  
I can bear the truth  
If you're planning to leave  
Then you don't have to wait  
I'll get over you

How do you want me?  
Say you are lonely  
Don't give me silence  
I will be gone  
How do you want me?  
Say that you need me  
I will be any  
Way you want

My heart is waiting  
Needs no explaining  
I have been patient  
All for you  
Now is that all you  
Are willing to give me  
Break the silence  
Say the truth

What I want is just a simple thing  
So come on over, look me in the eyes  
Am I asking far too much from you?  
How do you want me? No advice?
