

# Along The Road

Karmin

Experts at eighteen,  
With warm beer and caffeine  
We spoke all night and hang out due to first light would come  
We knew it was over, the morning came sober  
We said goodbye and then we smiled through a lie, just thinkin'

All the words we never said  
All the crazy things we did  
Keep on playin' in my head  
And although this is the end,  
Broken hearts are meant to mend  
And I know we'll meet again

Days turn to weeks, yeah  
We've all cut our tea, so  
We're keeping touch although we don't talk much  
I knew we'll find out some new friends  
Life changes, it happens  
But we're still crazy for those good old days we had,  
Just singing

All the words we never said  
All the crazy things we did  
Keep on playin' in my head (Ooh, yeah)  
And although this is the end,  
Broken hearts are meant to mend  
And I know we'll meet again  
Along the road  
Oh oh oh ooh  
Oh oh oh ooh  
Oh oh oh ooh  
Along the road

Some will lose their way,  
Vanish in the ha-aaaaaze  
But as the sun goes down,  
I sometimes think about  
Yeah yeah!  
All the words we never said  
All the crazy things we did  
Keep on playin' in my head  
And although this is the end,  
Broken hearts are meant to mend  
And I know we'll meet again  
Along the road  
All the words we never said  
All the crazy things we did  
Keep on playin' in my head  
(I know, yeah)  
And although this is the end,  
Broken hearts are meant to mend  
And I know we'll meet again  
Along the road

Oh oh oh ooh  
Oh oh oh ooh  
Oh oh oh ooh

Along the road
