## **Along The Road**

Experts at eighteen, With warm beer and caffeine We spoke all night and hang out due to first light would come We knew it was over, the morning came sober We said goodbye and then we smiled trough a lie, just thinkin'

All the words we never said All the crazy things we did Keep on playin' in my head And although this is the end, Broken hearts are meant to mend And I know we'll meet again

Days turn to weeks, yeah We've all cut our tea, so We're keeping touch although we don't talk much I knew we'll find out some new friends Life changes, it happens But we're still crazy for those good old days we had, Just singing

All the words we never said All the crazy things we did Keep on playin' in my head (Ooh, yeah) And although this is the end, Broken hearts are meant to mend And I know we'll meet again Along the road Oh oh oh ooh Oh oh oh ooh Oh oh oh ooh Along the road

Some will lose their way, Vanish in the ha-aaaaze But as the sun goes down, I sometimes think about Yeah yeah! All the words we never said All the crazy things we did Keep on playin' in my head And although this is the end, Broken hearts are meant to mend And I know we'll meet again Along the road All the words we never said All the crazy things we did Keep on playin' in my head (I know, yeah) And although this is the end, Broken hearts are meant to mend And I know we'll meet again Along the road Oh oh oh ooh Oh oh oh ooh

```
Oh oh oh ooh
```
