

# Everything is Right

Karmin

You've been thinking, nothing happens by mistake  
If doors are closing, doors will open in their place  
Still you worry what the future's got in store  
Now you're older, life is colder than before  
So you say...

Oh, oh oh oh, oh oh oh - here we go  
Oh, oh oh oh, oh oh oh - here we go

And I say...  
Just stop, see the stars align  
Slow down, take your time 'cause  
Everything is right, everything is right  
Just stop, let yourself be free  
Slow down, can't you see that  
Everything is right, everything is right

Take direction, there's no compass in the game  
Point the needle, no two people live the same  
Still you worry, don't you read between the lines  
Just relax now, life is random by design  
And you say...

Oh, oh oh oh, oh oh oh - there we go  
Oh, oh oh oh, oh oh oh - there we go

Everything I need, is here inside of me  
Be what it will be  
Victory or fall, I embrace it all  
Ending up on top
