

# Let's Get Lost

Karmin

I'm just a dreamer with my feet in the sand  
Soaking the sun here in my paradise land  
The tropical breeze keeps the sweat off my brow  
Leaves me just as happy as my brain will allow

Let's get lost in a dream together  
Let's get lost where there's nothing but good weather  
Let's get lost in a dream together with our feet in the sand  
In a paradise land

I'm just a dreamer where the tables' set for two  
No one else around here except for me and you  
Palm trees lean keeping us in the shade  
And every, every time we leave here we only wish we could've stayed

Let's get lost in a dream together  
Let's get lost where there's nothing but good weather  
Let's get lost in a dream together with our feet in the sand  
In a paradise land

I know I'm the one you want  
While your dancing with me under the sun  
I know I'm the only one  
Cause it feels like it's only begun  
And we'll dance for the stars when the sun has gone far away

Let's get lost in a dream together  
Let's get lost where there's nothing but good weather  
Let's get lost in a dream together with our feet in the sand

Let's get lost in a dream together  
Let's get lost where there's nothing but good weather  
Let's get lost in a dream together with our feet in the sand  
In a paradise land
