

# Night Like This

Karmin

Call all your homies up, tell 'em to bring a cup  
We 'bout to turn it, 'bout to burn it, 'bout to screw it up  
You got no car to drive, you better hitch a ride  
It's going down, it's going round, it's getting out of line

Whatever happens here is gonna disappear  
All of your problems gonna drown 'em in the Belvedere  
Nobody's keeping track how many drinks you had  
So it's okay to let go

Turn all of the lights down  
And rock your body to the beat like this  
We been going hard for a while now  
And we been waiting for a night like this  
That makes you go, oh oh  
Rock your body like, oh oh, rock your body  
Turn all of the lights down  
Cause we been waiting for a night like this

I got a little buzz, hope they don't call the fuzz  
This party's gonna be the craziest there ever was  
So watch me do my dance, my liquid confidence  
Has got me bumping, got me jumping out my party pants

Whatever happens here is gonna disappear  
All of your problems gonna drown 'em in the Belvedere  
Nobody's keeping track how many drinks you had  
So it's okay to let go

Turn all of the lights down  
And rock your body to the beat like this  
We been going hard for a while now  
And we been waiting for a night like this  
That makes you go, oh oh  
Rock your body like, oh oh, rock your body  
Turn all of the lights down  
Cause we been waiting for a night like this, yeah

A night like this  
A night like this  
A night like this

Take to the street, take my keys  
Think I'm gonna need that D.D.  
Don't judge, that's mean  
This right here is my therapy  
I never take bleep from any man  
Never grew up I'm Peter Pan  
Never land sleep no tryptophan  
Get zzz's when I die understand?

Turn all of the lights down  
And rock your body to the beat like this  
We been going hard for a while now  
And we been waiting for a night like this  
That makes you go, oh oh  
Rock your body like, oh oh, rock your body

Turn all of the lights down  
Cause we been waiting for a night like this...
