Oh written in the stars A million miles away A message to the main Oh Seasons come and go But I will never change And I'm on my way

Yeah You're listening now They say they ain't heard nothing like this in a while That's why they play my song on so many different dials 'Cause I got more fucking hits than a disciplined child So when they see me everybody brrrrrap's, brrrrrraps Man I'm like a young gun fully black barrack I cried tear drops over the massive attack I only make hits like I work with a racket and bat Look at my jacket and hat So damn berserk So down to earth I'm bringing gravity back Adopted by the major I want my family back People work hard just to get all their salary taxed Look I'm just a writer from the ghetto like Malorie Blackman

That's why you have to keep screaming 'til they hear you out

Oh written in the stars A million miles away A message to the main Oh Seasons come and go But I will never change And I'm on my way

Where the hell's all the sanity at, damn
I used to be the kid that no one cared about

Oh, oh, oh... [x3]

Yeah, I needed a change

When we ate we never tip cause we needed the change I needed a break

For a sec I even gave up believing and praying I even done illegal stuff and was leaded astray

They say the money is the root to the evilest ways

But have you ever been so hungry it keeps you awake

Mate, now my hunger would leave them amazed

Great, it feels like a long time coming, fam

Since the day I thought of that cunning plan

One day I had a dream I tried to chase it

But I wasn't going nowhere, running man!

I knew that maybe someday I would understand

Trying change a tenner to a hundred grand

Everyone's a kid that no one cares about

You just gotta keep screaming until they hear you out

Oh written in the stars A million miles away

A message to the main
Oh
Seasons come and go
But I will never change
And I'm on my way

Oh, oh, oh... [x7]

Oh written in the stars A million miles away A message to the main Oh Seasons come and go But I will never change And I'm on my way
