

## New Day

Karnivool

How did they find me?  
How did they know?  
This misconception of fate,  
I'm about to let go.

Awake in a new light, I'm alone in this room  
Heavy at heart, it may be a lie  
You will not see me

It's a new day  
(Why did they follow me home?)  
It's a new day

One more step  
It's here waiting for you  
Now go slow, take your time

Leave no mark  
You lost your way  
I hope you're watching me

One more step  
It's here waiting for you  
Now go slow, take your time

Subtle breakdown, for the one so free  
You lost your way  
No one held you back from me

How do you all speak with a lying tongue?  
How do we all sleep with a dying sun?

Sit down, lighten your load  
This storm is coming, you should've stayed home  
But I feel warm

Hey, let's get lost in a crowd while searching for  
something worth holding  
Hey let's get lost in a crowd  
I'll show you so much more, much more  
So much more, so much more

Are we waiting for a saviour?  
Someone to heal this or erase us.

How did they find me?  
How did they know?  
This misconception of fate, I'm about to let go.

Awake in a new light, I'm alone in this room.  
Heavy at heart, it may be a lie  
You will not see me

It's a new day  
It's a new day  
It's a new day

Are we waiting for a saviour?  
I'm so sick of waiting  
I've been waiting my whole life

This is a new day  
This is a new day  
This is a new day
