

New Day

Karnivool

How did they find me?
How did they know?
This misconception of fate,
I'm about to let go.

Awake in a new light, I'm alone in this room
Heavy at heart, it may be a lie
You will not see me

It's a new day
(Why did they follow me home?)
It's a new day

One more step
It's here waiting for you
Now go slow, take your time

Leave no mark
You lost your way
I hope you're watching me

One more step
It's here waiting for you
Now go slow, take your time

Subtle breakdown, for the one so free
You lost your way
No one held you back from me

How do you all speak with a lying tongue?
How do we all sleep with a dying sun?

Sit down, lighten your load
This storm is coming, you should've stayed home
But I feel warm

Hey, let's get lost in a crowd while searching for
something worth holding
Hey let's get lost in a crowd
I'll show you so much more, much more
So much more, so much more

Are we waiting for a saviour?
Someone to heal this or erase us.

How did they find me?
How did they know?
This misconception of fate, I'm about to let go.

Awake in a new light, I'm alone in this room.
Heavy at heart, it may be a lie
You will not see me

It's a new day
It's a new day
It's a new day

Are we waiting for a saviour?
I'm so sick of waiting
I've been waiting my whole life

This is a new day
This is a new day
This is a new day
