

You want to chase, this rabbit down a hole  
You start to slide and lose grip of control  
Make haste, it's time, to ruin or reward  
You say give in then you beg for more

You'll bury this, slow down  
It's all this system breeds  
You'll bury this, slow down, it's time to make amends

Save your eyes for this place where I define you  
Myth or desire  
When it's true love you held dear, feel it rising

So cut me, to size, I'm losing shape through all this  
You call me sublime  
You know that's such a waste of energy.  
Will I change, your mind if I could show you my way?  
A black stain on your heart  
You know that's not what i wanna see.

You'll bury this, slow down, it's time to make amends  
(always in vain now)

Save your eyes for this place where I define you  
Myth or desire  
When it's true love, you held dear, fear your horizons

You want to chase, this rabbit down a hole  
You start to slide and lose grip of control  
Make haste, it's time to ruin or reward  
You say give in and then you beg for more

You'll bury this, slow down, it's time to make amends  
I crave you

Set your eyes on this place where I define you  
Myth or desire  
When it's true love, you feel  
Save your eyes for, this place where I define you  
Myth or desire  
When it's true love you feel here.  
Feel it rising
