

Some More of the Same

Karnivool

Don't stand so close
Don't stand so close
Don't stand so close

It's just some more of the same

Same... (echo)

Say man into the mind, the place that you know
The feelings so fast, your stripped to the bone
Taken the time to learn what's within
The feelings so fast, I can't give in
Listen to me I'll tell you a song
Within your vowels are stripped to the bone
Taking the time to learn whats at heart
I've given it up, I'm giving you a chance

Its just some more of the same, you
It's just some more of a shame
Just give me someone to blame, you
Say let's have some more

Same... (echo)

Say man into the mind, the place that you know
The feelings so fast, your stripped to the bone
Taken the time to learn what you know
The feelings so fast, I can't let go
Listen to me I'll tell you a song
Within your vowels are stripped to the bone
Taking the time to learn whats within
I've given it up, I'm giving you a name

It's just some more of the same, you
It's just some more of a shame
Just give me someone to blame, you
Say let's have some more

Say whats on in your mind, just to fake it away
Just to show I'm inside, just to turn up today
So you laugh and you learn, yeh you take what you take
Up and down in this world, rip it up in vain
I'm listening as you fall, I'm running away from you, yes I am
I see that stare in your own fly, I see that stare in your own eye
A message left for you

Yes I am the thats gonna let you go
Yes I am the thats gonna let me go
Yes I am the thats gonna let you go
Yes I am the thats coming back for you
This is why I'm here with what I have to say
This is why I'm here with what I have to say
This is why I'm here for you
I'm ripping up and they cant control me, you
