

## Are You Looking for Action?

Kasabian

We're just looking for some action  
Just looking for some action, over here  
Everybody in the place now  
We're givin' you the chance to disappear  
To disappear, to disappear, to disappear

Broken bottles, leather biscuits  
I see no way of getting out of here  
I can't hear you, better use a speak and spell  
It's such a lovely way of getting out of it

We're just looking for some action  
Just looking for some action, over here  
Everybody in the place now  
We're givin' you the chance to disappear  
We're just looking for some action  
Just looking for some action, over here  
Everybody in the place now  
We're givin' you the chance to disappear  
To disappear, to disappear, to disappear

Give up, get down, get your flashlight  
Everybody down into the basement  
Give up, get down, until the sunlight  
They'll be sweeping you up off the pavement  
Give up, get down, get your flashlight  
Everybody down into the basement  
Give up, get down, until the sunlight  
They'll be sweeping you up off the pavement

Tollbooth parking, Ford Fiesta  
Got me licking on your '99  
Satsumas crawling with your ski boots on  
I said I've never met anybody as high as you

We're just looking for some action  
Just looking for some action, over here  
Everybody in the place now  
We're giving you the chance to disappear  
We're just looking for some action  
Just looking for some action, over here  
Everybody in the place now  
We're giving you the chance to disappear  
To disappear, to disappear, to disappear

Give up, get down, get your flashlight  
Everybody down into the basement  
Give up, get down, until the sunlight  
They'll be sweeping you up off the pavement  
Give up, get down, get your flashlight  
Everybody down into the basement  
Give up, get down, until the sunlight  
They'll be sweeping you up off the pavement  
Give up, get down, get your flashlight  
Everybody down into the basement  
Give up, get down, until the sunlight  
They'll be sweeping you up off the pavement

Give up, get down, get your flashlight  
Everybody down into the basement  
Give up, get down, until the sunlight  
They'll be sweeping you up off the pavement  
Give up, get down, get your flashlight  
Give up, get down, get your flashlight  
Give up, get down, get your flashlight  
Give up, get down, get your flashlight
