

Someone Like Me

Kasey Chambers

You are the morning coming out everyday
You're the sunshine and the wind, and rain
You're like the song stuck in my head
That will never go away

You're the river running wild, never stay
You're the bird who's singing on my window sill
You're the light shining down
You're the mansion on the hill

You've got it all figured out
You've got it all
But the only thing You need is me
You need someone like me

You're the finder of the straight and the lost
You're the value, You're the worth, You're the cost
You're the Savior and the faith
Coming down from the cross

You're the power that I hold in my hand
You're the water coming up through the sand
You're the one who makes me wanna be
Just the way I am

You've got it all figured out
You've got it all
But the only thing You need is me
You need someone like me

You might just walk right by me
You might not see
That the only thing You need is me
You need someone like me

Someone like me
Someone like me
Someone like me
Someone like me
