

# The Quiet Life

Kasey Chambers

We could be the talk of the town tonight  
Carry home your shoes in the morning light  
Or we could just stay here a while  
Wrapped up in the quiet life

We could sail away to Tobago  
Fly across the Gulf of Mexico  
Or we could just stay here a while  
Wrapped up in the quiet life

Now and then I'm loving the world again  
And I'll be fine living in the quiet life

We could get a job on the movie screen  
Smile on the cover of a magazine  
Or we could just be man and wife  
Happy in the quiet life

Where the clock don't move so quick  
Where the water don't make you sick  
Traffic don't keep you up at night  
Here in the quiet life

Now and then I'm loving the world again  
And I'll be fine living in the quiet life

Living in the quiet life  
Sleeping by a firelight  
Maybe I could make you smile  
In the quiet life

We could be the talk of the town tonight
