Save me

Your sweet, sweet love won't save me now Save me

Your sweet, sweet love won't save me now

I've been out at the edge of the world Close to the other side I've been 'cross every desert and back I ain't found no place to hide

Save me

Your sweet, sweet love won't save me now

I've been at every window and door
Sailed every ocean wide
I've been from east to west, back again
I ain't found no place to hide

Save me

Your sweet, sweet love won't save me now Save me

Your sweet, sweet love won't save me now Save me

Your sweet, sweet love won't save me now
