

## Rose

Kashmir

Rose, don't pull your needles out of me  
close your yellow leaves around me  
don't drink all the water from the ground  
I've got inside my holded soul  
don't you push the time shorter  
let me grow old

Rose, stay in my garden just for a while  
Rose, stay in my garden just for a while

Rose, don't you drop all your leaves  
doze and feel the raindrops you receive  
just drink all the water from the sky  
you see above your crown of gold  
don't you be a demon's daughter, let us grow old

Rose, stay in my garden, just for a while, stay in my garden  
Rose, stay in my garden, just for a while, stay in my garden  
Rose, stay in my garden, just for a while, stay in my garden  
Rose, stay in my garden, just for a while, stay in my garden
