## **Atmosphere**

When I was young, I would stand alone With visions of worlds that were all my own The lights in the sky weren't that far away Living in the vastness of outer space

All my life I've been a star Holding a light up in the dark While I try to keep clear Of all the waves in your atmosphere

All my life I've been a star Holding a light up in the dark While I try to keep clear Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere

When I was young I could hear the sound A melody pure and a rhythm loud Oh the sound took me away Carried through the vastness of outer space

All my life I've been a star Holding a light up in the dark While I try to keep clear Of all the waves in your atmosphere

All my life I've been a star Holding a light up in the dark While I try to keep clear Of all the waves in your atmosphere

Of all the waves in your atmosphere
