

How Long

Kaskade

How does it make you feel
When I say love is a battlefield
Partially concealed
Under heavy sword and shield
My casualty revealed
Someone's wish fulfilled

I'm breathing fire
(is my heart still beating)
And none less desired
(still let me leaving)
I'm breathing fire
(is my heart still beating)
And none less desired
(how long have you been leaving)
Hey, how long have you been leaving

Somewhere along the way
I hope you'd stay
You'd rather bear the blame
Something changed
You call it loud and clear
Compel the wounds to heal

I'm breathing fire
(is my heart still beating)
And none less desired
(still let me leaving)
I'm breathing fire
(is my heart still beating)
And none less desired
(how long have you been leaving)
Hey, how long have you been leaving
