I Feel Like

Kaskade

So much here to lean on So much loneliness to lose And when we stumble We'll have each other So all we have to do is choose

We're gonna see
That we can feel
We're gonna fly
This time love can be real

As we look into the future
And we celebrate the past
It's more than now, it's forever
I know this love is meant to last

We're gonna see
That we can feel
We're gonna fly
This time love can be real
