

I'll Never Dream

Kaskade

Word's can mean or mislead
Laying the heart on the line
For that second you believe
A life without him you'll survive

I try
I mislead but I can never dream
'Cause dreaming brings me back to you
I try to think of what the future holds
Because my past belongs to you

Lovely as a summer breeze
Taking away memories
Just hoping for a miracle
Embracing my life without you

I try
I mislead but I can never dream
(I'll never dream)
'Cause dreaming brings me back to you
(It brings me back)

I try to think of what the future holds
(I'll never dream)
Because my past belongs to you
(It brings me back)

I'll never dream
It brings me back
I'll never dream
It brings me back
I'll never dream
