

It's You It's Me

Kaskade

You never know who's waiting for you
You never know when love is coming your way
But if tonight i look again into your eyes
Then its you and its me and love
Then its you and its me and love

You never know who's waiting for you
You never know when love is coming your way
But if tonight i look again into your eyes
Then its you and its me and love
Then its you and its me and love

You never know who's waiting for you
You never know when love is coming your way
But if tonight i look again into your eyes
Then its you and its me and love
Then its you and its me and love

You never know who's waiting for you
You never know when love is coming your way (comin your way)
But if tonight i look again into your eyes
Then its you and its me and love
Then its you and its me and love oo baby

You never know who's waiting for you
You never know when love is coming your way (is comin your way,
hey)
But if tonight i look again into your eyes
Then its you and its me and love
Then its you and its me and love
