

One Heart

Kaskade

Both of us understand
At least when we want to
Knowing what makes us happy
Sometimes the hardest thing to lose

Shallow as we may be
As deep as we want to
As simple it better rough
So I leave some time for me and you

This love is brighter
This life is higher
One heart is wider
One heart

This love is brighter
This life is higher
One heart is wider
One heart, one heart

Love is not a trend
It's when we want to
Call it old fashioned, call it fake
But it's the way that we get through

This love is brighter
This life is higher
One heart is wider
One heart

This love is brighter
This life is higher
One heart is wider
One heart

This love is brighter
This life is higher
One heart is wider
One heart, one heart
One heart
