

Step One Two

Kaskade

Wake up, so much you and I can be
Far beyond the faces we can see
Listen to the silent prayer
As it goes up so to the sky

So we step one, two, you know the reason why
Step one, two, let the music seep in
Step one, two, move with me, there's nothing to it
So come on, so come on, so come on

Come on, you and I will be in love
So in love, so helpless, so new
Knowing we will ever see, the world is on a sea
That feel the love, and feel the love

So we step one, two, you know the reason why
Step one, two, let the music seep in
Step one, two, move with me, there's nothing to it
So come on

Step one, two, you know the reason why
Step one, two, let the music seep in
Step one, two, move with me, there's nothing to it
So come on

Step one, two, you know the reason why
Step one, two, let the music seep in
Step one, two, move with me, there's nothing to it
So come on
