

Steppin' Out

Kaskade

Here we are
We've come so far
A fine romance
Steppin' out to dance

Your lovely charms
When you're in my arms
That subtle glance
When steppin out to dance
to dance, to dance

Could you think it over
When we get older
I'll still want you here with me
Darlin' I hope that you agree
There's something that takes place
Whenever we embrace
I'm hoping that you take this chance
Steppin' out to dance

Here we are
We've come so far

Could you think it over
When we get older
I'll still want you here with me
Darlin' I hope that you agree
There's something that takes place
Whenever we embrace
I'm hoping that you take this chance
Steppin' out

Could you think it over
When we get older
I'll still want you here with me
Darlin' I hope that you agree
There's something that takes place
Whenever we embrace
I'm hoping that you take this chance
Steppin' out to dance
