

Summer Nights

Kaskade

We're so, we're so, we're so unlike
The others who run around
We don't, we don't, we don't mind
We're everything we really want

It's why we come here
We're turning, we're turning 'round 'round 'round 'round
This moment's so real
We're burning, we're burning down down down

Summer night
In my dream
Oh I wanna go back
Wanna go back
You were mine
We were young
You were all that I had
All that I had
Summer nights

I know, I know it's just a state of mind
That separates the two of us
Because we know it's just a matter of time...

It's why we come here
We're turning, we're turning 'round 'round 'round 'round
This moment feels so real
We're burning, we're burning down down down

Summer night
In my dream
Oh I wanna go back
Wanna go back
You were mine
We were young
You were all that I had
All that I had
Summer nights

Sing to me oh would you please
And heal my soul with harmonies
While all the people gather 'round
To hear your voice and feel the sound
