

Waste Love

Kaskade

Hanging out on my bed
Spending time I never had
Closer to my memory
Try to make me undo sad

When you say I am lonely
Did you count in what you said?
The love I saved for rainy days
Guess I gave it all away

Really wanna believe
Worn out love can succeed
If you stayed on my sheet
It would be too easy

While you waste love
My heart is in growing pains
While you waste love
My heart is in growing pains

Hanging out on my bed
All the fruits has now gone bad
Further south from my head
I still want you to come back

When I stated to let you down
You have been coming back around
Makes no difference anyway
Lazy feelings will obey

Really wanna believe
Worn out love can succeed
If you stayed on my sheet
It would be too easy

While you waste love
My heart is in growing pains
While you waste love
My heart is in growing pains

While you waste love
My heart is in growing pains
While you waste love
My heart is in growing pains
