

Take Another Ride

Kassidy

I lost a friend, a friend that was right,
You couldn't lead me on my way.
I dreamt a dream; I dreamt I was right,
I had enough to keep me sane.
I lost a friend, a friend that was right,
You sent me packing on my way.
I dreamt a dream; I dreamt I was right,
I had enough to keep me sane.

And did I mention about the way
She took my heart alive?
And did I mention about the way
She took my heart alive?

i lost a friend, a friend that was right
I packed my things and on my way,
I dreamt a dream; I dreamt I was right,
I had enough to keep me sane.

And did I mention about the way
She took my heart alive?
And did I mention about the way
She took my heart alive?

Take another ride with me!
Take another ride with me!
Take another ride with me!
Take another ride with me!

I know there is hard time coming!
I know there's hard times.
I know there's hard times.
Take another ride with me!
Take another ride with me!
Take another ride with me!
