

## Take Another Ride

Kassidy

I lost a friend, a friend that was right,  
You couldn't lead me on my way.  
I dreamt a dream; I dreamt I was right,  
I had enough to keep me sane.  
I lost a friend, a friend that was right,  
You sent me packing on my way.  
I dreamt a dream; I dreamt I was right,  
I had enough to keep me sane.

And did I mention about the way  
She took my heart alive?  
And did I mention about the way  
She took my heart alive?

i lost a friend, a friend that was right  
I packed my things and on my way,  
I dreamt a dream; I dreamt I was right,  
I had enough to keep me sane.

And did I mention about the way  
She took my heart alive?  
And did I mention about the way  
She took my heart alive?

Take another ride with me!  
Take another ride with me!  
Take another ride with me!  
Take another ride with me!

I know there is hard time coming!  
I know there's hard times.  
I know there's hard times.  
Take another ride with me!  
Take another ride with me!  
Take another ride with me!
