

# Feel What I Feel

Kat DeLuna

Why can't you smile  
Shake a hand  
Joke around when you're under  
Doesn't take that much to do it  
Sing a song when you're down  
Cause i know that you wonder  
What is coming over me

Don't you keep it in  
Gotta let it out  
Swing your head around  
Tell em' what you're all about  
Just believe it and get with it  
And when you hear the sound

Don't you know that i was made for this music?  
When i hear it take a ride and i lose it  
All my worries step aside  
When i hear a simple melody  
Let me in like the wind  
Let me take it higher

Make you feel what i feel  
I'll be that song that you play over and over  
Make you feel what i feel

De ah da  
Can you feel me  
De ah da  
Can you feel me

See i don't mind  
I don't hide  
Because cause I'm open  
What i gotta do to prove it  
Walk a mile in my shoes  
Will you dare take a journey  
With me is where you wanna be

Don't you keep it in  
Gotta let it out  
Swing your head around  
Tell em' what you're all about  
Just believe it and get with it  
And when you hear the sound
