

# Taking the World by Storm

Kataklysm

Corruption (corruption)  
A poisoned apple  
That feeds your loss  
Weaken (weaken)  
Reality is the greatest curse

Welcome to this  
Ensuring soft will  
I tried so hard  
Through the impossible  
Clenching my fists  
This fight will never end  
Nation rise  
Taking the world by storm

Overcome the pain  
Overcome, overcome  
Take away the fear  
Break away, break away  
Kill the voice inside  
Kill the light, kill the light

Destruction (destruction)  
Words of wisdom played upon  
Repent (repent)  
the day you reach the sun

Welcome to this  
Ensuring soft will  
I tried so hard  
Through the impossible  
Clenching my fists  
This fight will never end  
Nation rise  
Taking the world by storm

Overcome the pain  
Overcome, overcome  
Take away the fear  
Break away, break away  
Kill the voice inside  
Kill the light, kill the light

Walk through fields of war  
Face the spineless one  
I give my life, spirit aside  
I will conquer this life  
I will conquer this life  
I will conquer this life  
I will conquer this life
