

## Displaced

Katatonía

Do you have water in your car  
I might get thirsty along the way  
Are you sure it isn't very far  
Are we getting there today  
And is it hard  
And complicated  
You displace me  
Drive me there  
Let me sleep  
We are coming to an end here see  
Drive me there  
I'm meant to be deceived  
We are coming to an end here see  
Reaching for a sentence in my mouth  
Well hidden under my tongue  
I know what things are all about  
I made it so easy for you when you came  
For your safety
