

## For My Demons

Katatonía

well I'm here  
and summer is gone I hear  
so pray for me  
as I now leave your town  
when did I say this  
I will never leave  
I can't recall this  
moment in my life

you would never sleep at night  
if you knew what I've been through  
and this thought is all I have  
to trust upon when light is gone

my problem was  
that you kept me here too long  
and today is when  
we'll regret that I came by  
when did I say this  
I will never leave  
I can't recall this  
moment in my life

life is full of darkness  
and murderers come my way  
someday you will join them  
and I will let you in
