

## The Way We Are

Kate Boy

Just to be here, just to feel, you know  
There's been too much pressure in the border  
And I need to calm down  
Just to breathe here, oxygen, in and out  
There's been too much poison in the system  
Festering toxins I am in round

Got to get this out, out of my head  
Out in the air  
Got to get this out, out of my head  
Out in the air

We expire, we got a life too low  
And just lay, lay where ...we only forget  
This the way we are, the way we are, the way we are  
This the way we are, the way we are, the way we are

Feel all, stop and slowly shock, to know  
When we're to give, start the engine  
To see the remiss, the homing sound

Got to get this out, out of my head  
Out in the air  
Got to get this out, out of my head  
Out in the air

We expire, we got a life too low  
And just lay, lay where ...we only forget  
This the way we are, the way we are, the way we are  
This the way we are, the way we are, the way we are

The patience run, running, rushing for the ...  
Oho, and we parted from the heart.
