

# It's Only Christmas

Kate Ceberano

Do you remember what you wished for every Christmas?  
Do you say a prayer and send it on a star?  
Well maybe I'm just being over sentimental.  
But now its Christmas and I miss us most of all  
You know I never really took the time to thank you  
I was always thinking you were here to stay  
Is it's something in the air that gets me crazy  
Cause now its Christmas and I miss us just the same  
When it's cold I get lonely  
I can't talk I can't walk I can't breathe  
Then I dream and you hold me and the angels are singing with me  
I guess its Christmas when I miss us most of all  
So let the snow come down and drown out all my sorrows  
Maybe I can dance again with you  
And as the children sing I swear I heard you whisper  
That now its Christmas but I miss us just the same  
When it's cold I get lonely  
I can't talk I can't walk I can't breathe  
then I dream and you hold me and the angels are singing with me  
I guess its Christmas when I miss us most of all  
I guess its Christmas when I miss us most of all  
Cause now its Christmas and I miss us most of all
