

# Everlasting

Kate Earl

Another time another place  
Id feel worthy of your love  
But I been stuck inside this cage  
Cause it's the only place i know

And Ive been broken on the floor  
So many other times before  
Watching some one I trust  
Walk out on me  
So don't walk out on me...

I've always been unsure in love  
I hated being vulnerable  
But with you somehow I know  
A love like this is everlasting

i Got you underneath my skin  
Cant you see the state im in  
I decide to let you win  
Cause love like this is everlasting

Love like this is everlasting 3x

Another time I would ignore  
My tear stained cheeks and  
Ask for more, believing  
thats all I deserve because  
I gamble I get burned

love is just another savage game  
I played and played and played  
but it looks like fate has saved the best for me  
are you to best for me?

I've always been unsure in love  
I hated being vulnerable  
But with you somehow I know  
A love like this is everlasting

Got you underneath my skin  
Cant you see the state im in  
I decide to let you win  
Cause love like this is everlasting

Love like this is everlasting

I don't wanna give up what we got  
cause Im not gonna ask what might have been  
I don't wanna give up what I got  
When im with you baby

I don't wanna give up what we got  
Cause im not gonna ask what might have been  
Not for anything Ill take my chances with you baby

Ive always been unsure in love  
I hated being vulnerable

But with you somehow I know

A love like this is everlasting

round you I am someone else  
someone closer to myself  
took some time but I can tell  
love like this is everlasting
