

Soon

Kate Havnevik

Sleep, I wish that I could sleep somehow
Seems, the waiting never ends
Feel, the expectations rising
Soon, yes I'll be with you soon

Shining light in every soul I know
Guide me through the night
Bring me home
Soon, I'll be there soon

Soon, I'll tell you all that I've been through
Change, could it be I've changed, somehow

Shining light in every soul I know
Guide me through the night
Bring me home
Close your eyes and all your fear will go
Gravity and love pull me home to you
Soon

Darkness colors everything
You are making laps of light
Guide me

Shining light, in ever soul I know
Guide me through the night
Bring me home
Close your eyes and all your fear will go
Gravity and love pull me home, to you
Soon, I'll be there soon
