

# The One Thing I Know

Kate Miller-Heidke

Our astrology will prove  
My love it's true  
I'll never get enough of you

Endless as as desert sky  
My hunger for the fire that gathers in your eyes

Shine, shining in the light

One thing, the one thing, the one thing I know  
The one thing I know to be true  
I'll never, I'll never wherever I go  
I'll never finish loving you

We could run away tonight  
Just you and I  
oh leaving everything behind

A moving rhythm in my heart  
We can see the future following the stars

Shine, shining in the light

One thing, the one thing, the one thing I know  
The one thing I know to be true  
I'll never, I'll never wherever I go  
I'll never finish loving you
