

All Talk

Kate Nash

Action, action,
Words are only in my mouth
Action, action, action
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
You said you'd meet me there
But you never came
You let me down
I'm used to it now

Action, action, action
Words are only in my mouth
Action, action, action
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth

You said some sh*t about me
But I don't mind
If you don't respect me
All that means is that you can't change me

Action, action, action
Words are only in my mouth
Action, action, action
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Yeah, action, action

You have a problem with me
'Cause I'm a girl
I'm a feminist
And if that offends you
Then f*ck you

Action, action, action
Words are only in my mouth
Action, action, action
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
The only thing that means anything now
Is action, action

And when you're close to my heart
It's undyingly yours
But best not to forget
It's undeniably mine

Action, action, action

Words are only in my mouth
Action, action, action
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
The only thing that means anything now
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words are only in my mouth
Words...
Words are only in my mouth
In my mouth
In my mouth
In my mouth
In my mouth
In my mouth
In my mouth
In my mouth
In my mouth
In my mouth

Oh, I've got your attention
Look how I caught your attention
Yeah, I got your attention
