

Cherry Pickin'

Kate Nash

Stop cherry pickin' all over town
You were the one I was thinking about
You're the one I used to call friend
But now I'm driving you around the bend
(2x)

You better cut cut cut that girl loose
Yeah get get get get get her out of your
Cut cut cut that, cut that girl loose
Yeah get get get get get her out of your life

Oh my, we're so young
Yeah we're the ones kicking it and having fun
We got all the time in the world
We don't have to run

But when we're coming down do you fell bad?
Do you look at me? Does it make you mad?
Did I used to be something I forgot?

You better cut cut cut that girl loose
Yeah get get get get get her out of your
Cut cut cut that, cut that girl loose
Yeah get get get get get her out of your life

Why you trippin'? What's the deal?
Yea did I lose my spark and my sex-appeal?
Well should I be working it trying to fill a hole?

Left at the hands of my own devices
Well yeah I think I'm headed for a crisis
I'm older but I'm confused still

You better cut cut cut that girl loose
Yeah get get get get get her out of your
Cut cut cut that, cut that girl loose
Yeah get get get get get her out of your life

Stop cherry pickin' all over town
You were the one I was thinking about
You're the one I used to call friend
But now I'm driving you around the bend
(2x)

You better cut cut cut that girl loose
Yeah get get get get get her out of your
Cut cut cut that, cut that girl loose
Yeah get get get get get her out of your life
