Cherry Pickin'

Kate Nash

Stop cherry pickin' all over town You were the one I was thinking about You're the one I used to call friend But now I'm driving you around the bend (2x)

You better cut cut cut that girl loose Yeah get get get get her out of your Cut cut cut that, cut that girl loose Yeah get get get get her out of your life

Oh my, we're so young Yeah we're the ones kicking it and having fun We got all the time in the world We don't have to run

But when we're coming down do you fell bad? Do you look at me? Does it make you mad? Did I used to be something I forgot?

You better cut cut cut that girl loose Yeah get get get get her out of your Cut cut cut that, cut that girl loose Yeah get get get get her out of your life

Why you trippin'? What's the deal? Yea did I lose my spark and my sex-appeal? Well should I be working it trying to fill a hole?

Left at the hands of my own devices Well yeah I think I'm headed for a crisis I'm older but I'm confused still

You better cut cut cut that girl loose Yeah get get get get her out of your Cut cut cut that, cut that girl loose Yeah get get get get her out of your life

Stop cherry pickin' all over town You were the one I was thinking about You're the one I used to call friend But now I'm driving you around the bend (2x)
