

Shout To The Devil

Kate Rusby

Can you walk though the sky turns black,
When you shout to the Devil do you hear him back?
Can you walk though the lightning cracks,
When you shout to the Devil do you hear him back?

There he's standing with his open heart
Don't go near or you will fall apart
There he's standing with his eyes so blue
Don't go near or he will ruin you

Oh, my heart,
Don't break my heart

Do you feel as you climb that stack,
When you shout to the Devil do you hear him back?
And will you heal when the whips go crack,
When you shout to the Devil do you hear him back?

There he's standing with his open heart
Don't go near or you will fall apart
There he's standing with his eyes so blue
Don't go near or he will ruin you

Oh, my heart,
Don't break my heart

Make then deal and then sign that pact,
When you shout to the Devil do you hear him back?
And you can steal just what you lacked,
When you shout to the Devil do you hear him back?

There he's standing with his open heart
Don't go near or you will fall apart
There he's standing with his eyes so blue
Don't go near or he will ruin you

Oh, my heart,
Don't break my heart

Do you care as you walk that track,
When you shout to the Devil do you hear him back?
Will you share what you can't give back,
When you shout to the Devil do you hear him back?

There he's standing with his open heart
Don't go near or you will fall apart
There he's standing with his eyes so blue
Don't go near or he will ruin you

Oh, my heart,
Don't break my heart

Oh, my heart,
Don't take my heart
