

# Electroshock

Kate Ryan

The beat is pushing me so good right  
The heat is burning me up all night  
Electroshock

Can't keep it hidden  
I can't keep fighting myself  
I know it's forbidden  
But running from you, it won't help  
Your lightning flows like it's charging me up  
It scorches me and I'm losing control

Electroshock, what you do to me?  
Caught up in the rhythm, caught up in the rhythm  
Don't stop, cuz it's killin' me  
Turn it up a little, turn it up a little  
The beat is pushing me so good right  
Hit the dance floor, hit the dance floor  
The heat is burning me up all night  
Hit the dance floor, hit the dance floor

Flow touch is rising, touching the sparks on my skin  
Music keeps driving, and deep in my soul it's a sin  
Your lightning flows like it's charging me up  
It scorches me and I'm losing control

Electroshock, cuz it's killin' me  
Turn it up a little, turn it up a little  
Don't stop, what you do to me?  
Caught up in the rhythm, caught up in the rhythm

Electroshock, what you do to me?  
Caught up in the rhythm, caught up in the rhythm  
Don't stop, cuz it's killin' me  
Turn it up a little, turn it up a little

Electroshock, what you do to me?  
Caught up in the rhythm, caught up in the rhythm  
Don't stop, cuz it's killin' me  
Turn it up a little, turn it up a little  
The beat is pushing me so good right  
The heat is burning me up all night  
Hit the dance floor, hit the dance floor
