

Hands Up

Kate Ryan

The first time I saw you I still remember when you passed me by
Love at first sight that day in September when I was so shy

The way you smiled, it turned me around - You spin my life upside down

And for a while time stood still - 'Cause I couldn't believe this was real

[Chorus]

So put your hands up in the sky
C'mon and celebrate our love tonight
Yea put your hands up right into mine
'Cause baby love reigns divine

The first time I kissed you I still remember, I gave all I had
(We were) out of control that night in September
Yea we were bad

The way we held each other so tight - You made me shiver in sheer delight

I felt the earth move as time stood still - No I couldn't believe this was real

[Chorus]

Yea put your hands up in the sky - C'mon and celebrate our love tonight

You gotta live one day at a time - 'Cause baby love reigns divine
